

Setup guide for Mac OS X Leopard 10.5-6

UniWide is the UNSW Campus Wireless Network for UNSW students and staff. It offers fast, secure wireless network connectivity from a wide range of locations across UNSW's campuses. Wireless access is available to all current staff and students. UniWide can be accessed via any WiFi-enabled laptop or mobile device that supports WPA2 Enterprise wireless security.

System requirements & prerequisites

- To access UniWide, you will need a properly configured 802.11 a/b/g/n (WiFi) compatible laptop computer or mobile device that supports WPA2 Enterprise wireless security. Leopard and Snow Leopard Macs have built-in AirPort that supports the above requirements.

UniWide requires zPass to access - UniPass will no longer work on this service

For more information about zPass, please visit www.it.unsw.edu.au/students/zpass/

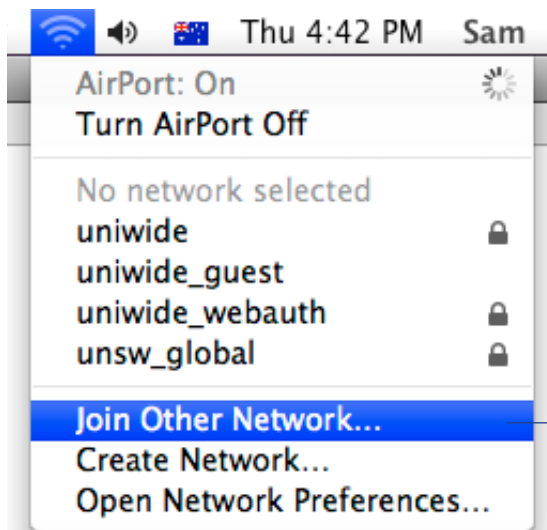

Step 1 - Activate AirPort wireless

1. Click the **AirPort** icon in the top right of your Mac screen

2. Select **Turn AirPort On**

Step 2 - Configure for UniWide

You need to be on campus near a UniWide hotspot such as a library, computer lab or common area to configure your computer. If unsure look for the UniWide logo (above) or view www.it.unsw.edu.au/students/uniwide/coverage.html for hotspot locations on campus

3. Select **Join Other Network...**

 **Enter the name of the network.**
 Enter the name of the network you want to join, and then enter the password if necessary. You can also click Show Networks to see a list of available networks.

Network Name:

Security:

Remember this network

4. Click **Show Networks**

 **Select the network you want to join.**
 Select the network you want to join from the list, and then enter the network password if necessary.

uniwide	
uniwide_guest	
uniwide_webauth	
unsw_global	

Remember this network

5. Select **uniwide**

 **Select the network you want to join.**
 Select the network you want to join from the list, and then enter the network password if necessary.

uniwide	
uniwide_guest	
uniwide_webauth	
unsw_global	

Remember this network

User Name:

Password:

802.1X:

6. Tick **Remember this network**

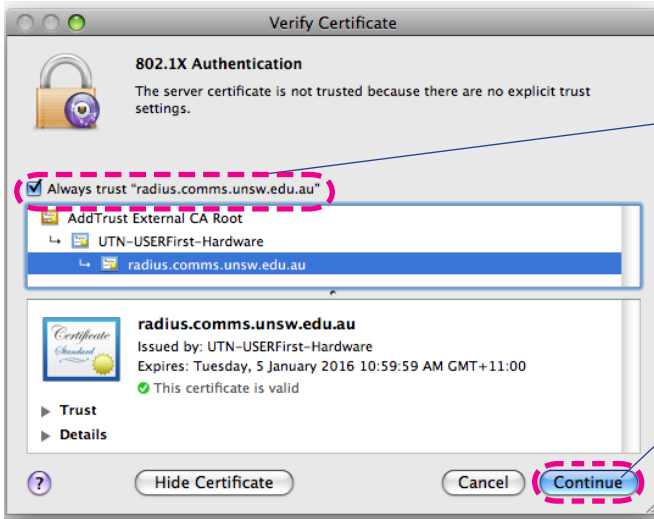

7. Enter your z number and zPass password

8. Select **uniwide** or **WPA: uniwide**

9. Click **Join**

10. Click **Show Certificate**

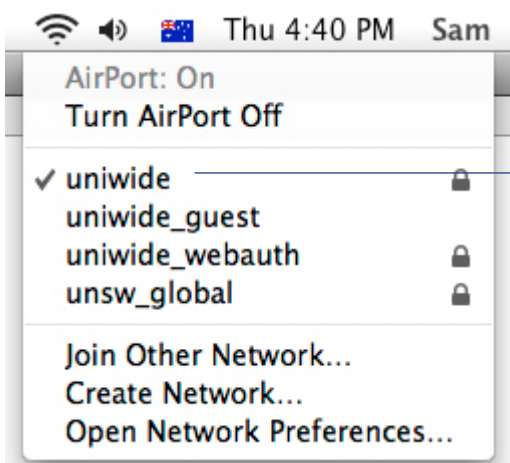

11. Ensure the checkbox **Always trust: radius.comms.unsw.edu.au** is ticked

12. Click **Continue**

13. Enter your **Mac admin** username and password then click **OK**

You may be asked to authenticate at this point; enter your z number and zPass

You will then see **uniwide** selected in the AirPort wireless list. You are now connected to UniWide

NOTE: After setup you may be prompted to enter your zPass again when you next restart your Mac. This will only happen once.

If you change your zPass in the future - you will be prompted to re-enter it the next time you attempt to connect to UniWide

If you have any issues or questions, please contact the IT Service Centre at itservicecentre@unsw.edu.au
