UniWide is the UNSW Campus Wireless Network for UNSW students and staff. It offers fast, secure wireless network connectivity from a wide range of locations across UNSW’s campuses. Wireless access is available to all current staff and students. UniWide can be accessed via any WiFi-enabled laptop or mobile device that supports WPA2 Enterprise wireless security.

System requirements & prerequisites

- To access UniWide, you will need a properly configured 802.11a/b/g/n (WiFi) compatible laptop computer or mobile device that supports WPA2 Enterprise wireless security. Most Macs manufactured in the last few years have built-in WiFi compatible wireless, branded as AirPort.

Index

1. Activate AirPort wireless [page 1]
2. Configure and connect to UniWide [page 2]

IMPORTANT CHANGES IN 2010

- you now need to use your zPass to log into UniWide
- you can no longer use UniPass
- you will need to accept a new certificate (step 2.8)

For more information about zPass, please visit www.it.unsw.edu.au/students/zpass/

Step 1 - Activate AirPort wireless

1. Click the AirPort icon in the top right of your Mac screen
2. Select Turn AirPort On

Continued over...
Step 2 - Configure and connect to UniWide

1. You should now be connected to the UniWide wireless network

3. Click the AirPort icon again

4. Select uniwide

An AirPort login window appears

5. Enter the following:
   - your zNumber in the Username field
   - your zPass in the Password field

6. Click Ok

An AirPort login window appears

7. Click Show Certificate icon

8. Ensure the check box Always trust these certificates is ticked

9. Click Continue

10. You will then be prompted to enter your Mac admin username and password to accept the changes to the AirPort configuration

   You should now be connected to the UniWide wireless network
